Webinar Series on:

SMART AND RESILIENT CITIES

COMMITTEE ON DATA
CODATA
INTERNATIONAL
SCIENCE COUNCIL

Topic for the day: Data Science enlightening the path for resilient cities to fight COVID-19

Case studies from Pune (India) and Medellín (Colombia)

JAIRO ESPINOSA
**Full Professor
Universidad Nacional
de Colombia**

MAHESH HARHARE
**Chief Resilience
Officer
Pune City (INDIA)**

This webinar will present insightful case studies on two cities' responses to COVID-19. Find out how these cities have responded and learnt lessons with regard to policies, interventions and activities to respond to COVID-19 while taking action to mitigate the effect on their economies.

The speakers and participants will discuss the following issues:

– Using data and working to keep people safe, healthy and connected during these challenging times;

– Real-time adaptations to changes in the business and economic scenarios;

– Building trust in communities and developing plans to face the economic effects of the COVID-19 pandemic.

**Monday
May 11, 2020
14:00 UTC**

19:30	Ahmedabad, India
09:00	Medellín, Colombia
07:00	San Diego, CA, USA
